

BOHLER UDDEHOLM **Australia**

“High Performance Metals”

Product Name Change

Old Name

Stavax Supreme

Ramax 2

New Name

Mirrax ESR

Ramax HH

The name change of **Stavax Supreme** to **Mirrax ESR** has come about due to the high polishability of Stavax Supreme.

Changing the name of **Ramax 2** to **Ramax HH** is due to the fact that HH more closely reflects the high hardness values of this product.

After 1st January both will be invoiced with their new names.

Please Note *There is no change to the chemical or mechanical properties of either grade*

If you have any questions please contact your nearest branch.
